Foreword

In this edition of the annual, the mirror is being used as an instrument to reflect the varied aspects of life here at Spring Garden High School. The outstanding things along with the "little things," give much to be reflected.

Students going from classes to clubs, to athletics, and the many other activities that make up our school life, form the composite picture of the full school life spent here at Spring Garden.

It has been the aim of the staff to vividly recreate those unforgettable moments which have attributed much to making activities, both extracurricular and academic, more exciting.

Dedication

We, the staff, wish to dedicate the 1959 MIRROR to MR. and MRS. L. C. NEELEY. We would like, at this time, to thank them for the many things they have done for us.

They have always been so understanding as we have come with problems, have advised us at all times to the very best of their abilities, have taken each individual's interest to their hearts, and we are really honored to have them as principal and teacher.

As Mr. and Mrs. Neeley look back through this edition of the MIRROR, we sincerely hope that it will remind them of the high esteem in which they were held by their students.

Mr. Neeley busy at work.

Mrs. Neeley doing one of her many jobs as secretary for the school.

STUDENTS

Mirror, Mirror, on the wall
Who's the most comely of them all . . .

When looking at these articles that are reflected in the mirror, we will have memories of the faces of students with whom we associated every day and whose pictures are found in these pages.

These memories will not only be of the faces, but of individual personalities.

Student Cooperative Association

Some purposes of having an SCA are:

1. It creates better relationships between faculty and students.
2. It gives students a voice in school affairs.
3. It provides good training in leadership.
4. It promotes good citizenship.
5. It coordinates club activities and helps to direct their activities.
6. It promotes good school spirit.

As one of the most important organizations in high school, our club has certain objectives for making it an effective one. Preparing students for good citizen leadership, encouraging committees and clubs to work more effectively and creating more interest and cooperation between the SCA council and the student body are some of these objectives. Also, creating respect for authority and school property, and teaching students to be good followers as well as good leaders are objectives.

Our meetings are to create educational and recreational interests.

MRS. OWEN
Adviser

In the Spanish Club, besides learning the language, we learn about the customs and habits of the Spanish speaking people.

Here the group is dressed in costumes that might be seen in the Spanish speaking countries.

We are satisfied to know we can have a promotion of good will toward our neighboring countries and our dependence on the Latin American countries for their many products.

Also, we learn the appreciation of their art, music and dances; both old and modern.

Dramatics is the study of plays by acting and producing them.

Two objectives for dramatics are to cultivate your power to express emotions; and to give opportunity to adapt and adjust yourselves to real life situations.

The Gardener Staff

The "Gardener" Staff, composed of seventeen students, collects news, writes it up, and prints an issue of the school paper each six weeks during the school year. It is also a duty of this staff to raise enough money to be self-supporting. To do this the members have to sell advertising space to the various business establishments in the community and the neighboring towns.

The paper has received a first place award for the past two years at the Southern Interscholastic Press Association. It also won a second place award at the Columbia Scholastic Press Association in 1958.

By being a member of the staff a student receives training in all phases of newspaper writing.

3. To develop the club into a working organization that is devised to improve athletic and school conditions and not to be used for any personal or self-gain.
4. To develop better relationship between the teachers and the athletic program.

Rules for becoming a member are:

1. If you have participated in basketball and have played on the average of one quarter per game.
2. If you have participated in baseball and have played on the average of two innings per game.

Mirror Staff

The purpose of this staff is to take the highlights, both social and academic, of our school year, compile them and put them in book form.

It is our wish that it will be a very accurate and informative reflection of the year's happenings.

By working on the annual, students get good business training in creative writing and organizing materials.

The work on the annual is extracurricular and requires many hours work out of school.
